PARTICIPATION AGREEMENT

PLEASE COMPLETE THIS FORM AND SEND VIA EMAIL OR FAX

AS DEALING WITH MINORS, ALL REFERENCE TO "PARTICIPANTS" SHALL INCLUDE THE FATHER/MOTHER/GURDIAN, WHO ACTS IN THIS AGREEMENT IN HIS OWN NAME AS THE LEGAL REPRESENTATIVE OF THE MINOR

The Participant requests to form part of the "Element Skate Cap Spain" organized by Emilio Aranz Granda (from this point on the organization) in the session and dates indicated in the attached Data Sheet. Parents authorize the participation of his son/daughter and certify that they have reviewed with him/her the information of the program, and have become familiar with the program and the activities in it included. Parents allow their child's participation in all camp activities (except those who have requested that the Participant is excluded due to medical or other reasons, which are specified in the data sheet).

The Father / Mother / Guardian knows and understands that any sponsor/collaborator of the skatecamp and GSM Europe, legal owner of the ELEMENT brand, doesn't participate in the organization and camp management and that its relationship with Emilio Aranz Granda (the organization) and the Skate Camp is merely as a sponsorship or partnership. Therefore any of them are released from all liability for damages and losses of any kind that may result from the development of the activities carried out in the camp.

The Father/Mother/Guardian certifies that he/she has given his/her son/daughter the pertinent instructions so as to make him/her understand the importance of acknowledging and obeying the rules, regulations and safety procedures of the Camp. The Participant has read the Code of Conduct (attached), recognizing its importance and is committed to meet all its requirements.

The organization reserves the right to terminate – without any refund- any participant whose conduct – in the opinion of the coordinators – is in detriment to the harmony and correct development of the camp's activities, to his/her own safety or that of the other participants, or violates the rules of the Code of Conduct. Should this happen, parents will be notified and will be responsible for the participant's transportation, not later than 24 hours after notification, as well as for covering any expenses incurred by the organization because of this suspension.

In our skate camp the safety of the participants is a top priority; this is why an analysis of potential risks to which participants are exposed, stating appropriate ways to minimize them, is carried out. Participants have a civil liability insurance and every reasonable precaution is taken in order to ensure that programs are conducted by qualified staff in a safe and responsible manner. However, there are certain risks due to the type of the camp's activities (skateboarding) as well as to the natural environment. Among them the following (but are not limited to) are included: transportation, sports, challenges, field trips and cultural visits, games, climate change, plants and insects. It is important to admit that these and other risks which have not been mentioned are inherent to the program and must be accepted by the participant and/or his/her parents.

The participation in the camp can be physically and emotionally demanding for some people. The Participant and the Parents/Guardians are required to notify the organization any problem or situation that requires medical supervision, infectious diseases, physical or psychological needs, or special care needed by participants (this information must be recorded in the data sheet). The consequences arising from the absence of such information are the responsibility of the Participant and the Parents/Guardians. The Participant must submit a medical certificate* 15 days before the start of camp.

*The contribution of the medical certificate is considered a prerequisite in order to participate in the camp. As a result, the failure to provide the said certificate within the period stated unables the Participant to take part in the camp, without refund of the paid amount.

When a Participant – due to his/her health condition previous to the Camp – requires special treatments, he/she will have to provide the necessary medicines in their original boxes and in sufficient quantities. The organization expenses incurred by such situations will have to be covered by the Parents/Guardians. If discomfort does not repeat, the organization is authorized to deliver first aid medicines (which do not require medical prescription). If an accident or illness were to occur, Parents/Guardians will be immediately contacted or, in case of no response, the emergency phone number provided. In case of an emergency the organization is authorized to allow medical care to be granted, as well as hospitalization and necessary treatments. Also the organization is authorized to distribute information about the Participant to the camp's staff who may require it, and if necessary, disclose medical information to external medical staff.

In compliance with the provisions of Organic Law 15/1999, of Personal Data Protection, you are informed that the provided data will be included in a data processing file ownership of Emilio Aranz Granda. This file is intended to manage and control the services under contract as well as to send commercial communication of the services provided by the owner. All data included in the forms are mandatory and refusal would mean the inability to contract the offered activities.

For the practice of the right of access, rectification, cancellation and opposition, you may write to the mail address: skatecampspain@elementeurope.eu

The organization is granted the right to use, reproduce or distribute photographs, videos or recordings of the participants for promotional purposes.
